

Problem:

- Intense hot spots
- Stress on air conditioning units
- Costly utility bills
- Uneven temperature throughout rooms

Solution:

Solar Gard Panorama Hillite® 70

Amount of film:

40,000 square feet

Benefits:

- Reduction of hot spots
- More comfortable temperature and working environment
- Lower energy costs
- Preservation of building esthetics

“Adobe has set a high standard for other companies to introduce sustainable, environmentally-friendly practices into their facilities. It will be a personal and professional goal to seek out and work with other businesses focused on sustainability to this level in the future.” Paul Murphy, Bay Area Window Film

Adobe implements cost saving energy related improvements with Solar Gard®

commercial building owners.
