

## Safety and Security Window Films: Success Stories

# US Department of Labor, Washington, D.C. INSTALLATION

Gary Taylor, Physical Security Specialist

After 9/11, property and security managers in Washington, D.C., found themselves presented with a daunting task – to vastly increase safety in some of the oldest and most historically prominent buildings in the nation. As Gary Taylor, physical security specialist for the US Department of Labor, found, one of the main concerns was broken glass. If an explosion or blast were to shatter the many expansive windows in his building,

the extent of the damage would be devastating. With thousands of square feet of glass, he needed a product that would mitigate such possible damage. After conducting online research and weighing several options, he decided on Solar Gard 4 Mil Clear for the atrium and display areas, and 7 Mil Clear for the rest of the building.

Already installed on a number of government buildings, Solar Gard high-quality window film provides the exact kind of increased safety from broken glass that he was looking for. He decided on Solar Gard 4 Mil Clear for the atrium and display areas, and 7 Mil Clear for the rest of the building. The installation was performed quickly, professionally, and without interruption to daily operations. The result was ideal for Mr. Taylor.

Now the US Department of Labor is a much safer place for employees and visitors.

is a much safer place for employees and visitors. Since broken glass can result even from an explosion several hundred feet away, the facility's windows are protected with Solar Gard window film that effectively reduces the possibility of injury and damage from shattered glass. Solar Gard window film also blocks almost 100 percent of harmful ultraviolet radiation, so the building's interior has increased protection from fading. On top of that, since the installation was quick and non-invasive, the employees were able to operate as usual. Solar Gard window film is the perfect solution for the US Department of Labor!
